## PROFESSIONAL SUMMARY

Motivated Full Stack Developer with a Diploma in Computer Engineering and hands-on experience building modern, responsive web applications. Proficient in frontend technologies like React and Tailwind CSS, paired with a solid understanding of Node.js and Express.js backend architectures. Skilled in building scalable REST APIs, managing relational and non-relational databases, and optimizing frontend performance. A continuous learner dedicated to delivering clean, maintainable, and efficient code in fast-paced, collaborative environments.

## TECHNICAL SKILLS

|                   |                                                               |
|-------------------|---------------------------------------------------------------|
| Languages         | JavaScript (ES6+), Python, C                                  |
| Frontend          | HTML5, CSS3, React.js, Tailwind CSS, Bootstrap, Framer Motion |
| Backend & DB      | Node.js, Express.js, RESTful APIs, MySQL, MongoDB             |
| Tools & Workflows | Git, GitHub, VS Code, npm, Postman, Chart.js, Figma           |

## TECHNICAL PROJECTS

- Interactive Analytics Dashboard Application

React, Tailwind CSS, Chart.js, Node.js

  - Designed and engineered an interactive dashboard capable of rendering complex datasets visually using **Chart.js**.
  - Built dynamic, responsive analytical cards and UI components optimized for seamless performance across devices.
  - Structured clean state management in React to handle asynchronous backend data streams effectively.
- Professional Developer Portfolio Website

React, Tailwind CSS, Framer Motion, Figma

  - Designed a high-performance personal portfolio, transforming conceptual design frames from Figma into a live production site.
  - Implemented complex, micro-interaction animations using **Framer Motion** to elevate engagement without compromising page speed.
  - Utilized semantic HTML and utility-first CSS configurations to ensure full accessibility and responsive scaling.
- Local Shop Marketing Web Platform

JavaScript, HTML5, CSS3, MySQL

  - Developed a web-based platform tailored to bridge the digital gap for local merchants by offering online business promotion tools.
  - Designed database schemas using **MySQL** to efficiently capture and categorize regional vendor operational details.

## PROFESSIONAL EXPERIENCE

---

### Freston Analytics

May 2023

*Computer Engineering Intern*

- Collaborated directly with software development teams to write and refactor functional, clean web application code.
- Gained practical exposure to cross-functional engineering standard workflows, including version control processes and code reviews.
- Contributed to identifying and resolving frontend layout rendering discrepancies to improve UI consistency.

## EDUCATION

---

### Diploma in Computer Engineering

2021 – 2024

*JDT Islam Polytechnic College*

- **Core Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Software Engineering Principles.

## CERTIFICATIONS

---

- **Meta Front-End Developer Professional Certificate** – Coursera
- **IT Career Workshop** – Bridgeon
- **Advanced React & UI Development Frameworks** – Coursera Project Network

## LANGUAGES

---

**Malayalam:** Native • **English:** Professional Working Proficiency • **Hindi:** Professional Working Proficiency
